Dear John and Tony

I am writing to you both on behalf of the DSC Day Service – Supported Employment Team to express our gratitude for the wonderful work opportunity you have given David Hudson. Your enthusiasm and support has made a big difference to David's life. It is clear that David is becoming more independent and is learning new sets of skills within the work environment and that he is developing his own values in relation to work. Our team and other staff that work directly with David during the week have noticed a difference in David's whole demeanour since he started working within your company.

I would like to take this opportunity to thank all the staff that David and I have come into contact with, whether it be on the warehouse floor or out on deliveries. They have been tremendous in their guidance and assistance and have treated him as one of the team which is a credit to all of you at Robinsons.

Many thanks again.

With kind regards,

Yours sincerely,

Monica-Rose Proctor  
CC Pascale Despringre, Julie Rennison
